Welcome! As the new millenium approaches, we find ourselves reflecting upon the mistakes and triumphs of the last year, decade, and century. While progress has been made in many areas to relieve human suffering, there are always new battles to be fought. AIDS is one such battle.

Fifteen years ago, HIV and AIDS were virtually unknown diseases. Now, in such a short period of time, these two acronyms have become household words and the AIDS had become a powerful killer, affecting millions worldwide. The disease is blind to the various distinctions we place on one another and indiscriminate in choosing its victims. Therefore, we all must set aside our differences and preconceptions and join together to ease the suffering of those affected. Your presence here shows a commitment to this goal, bonding every individual in this arena together. Thank you for attending Ice Fantastic '99. Your support is felt by both the skaters in the show and those who will receive the benefits of your generosity. Please sit back, relax, and enjoy the show!
